

# Honeywell

**Honeywell**

Fabricantes de sistemas de automatización y control, sistemas de seguridad: cctv, control de acceso, aire acondicionado, control de activos; detección de incendio, extinción, agentes limpios, polvos químicos; sistemas para toda la industria y edificios. HB brinda suministro de Actuadores y motores, sensores de humedad, temperatura y CO2, variadores de frecuencia, válvulas de control y balanceo, termostatos y economizadores.

## TERMOSTATOS

Honeywell es ampliamente reconocido por la calidad en todos sus productos y uno de lo más emblemáticos es sin duda alguna sus Termostatos, tanto en aplicaciones residenciales como industriales la calidad de estos siempre a sido ampliamente reconocida. En Honeywell contamos con termostatos sencillos - desde aquellos "No programables" electromecánicos y electrónicos hasta aquellos "Programables" 5-2, 5-1-1 hasta 7 días. De igual forma se pueden encontrar desde una sola etapa hasta aquellos para 3 etapas de calor y 3 de frio. Las aplicaciones van desde uso residencial hasta uso industrial como termostatos para manejadoras de aire y equipos fan & coil.

# Honeywell

## Non-Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

## Non-Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

### Lyric Thermostat

The Lyric thermostat is ideal for customers who are always on the go and want optimal comfort and savings they don't have to think about. Instead of operating on a fixed schedule, Lyric uses their smartphone location to automatically adjust the temperature as they come and go – delivering comfort when they're home and savings when they're away. It's the next generation of connectivity, from the home comfort leader.

### Non-Programmable FocusPRO

Honeywell's FocusPRO® 5000 digital thermostat offers the perfect blend of features, performance, energy savings and value. With the largest backlit screen in its class, the FocusPRO 5000 prominently displays both room and set temperature.

### Non-Programmable PRO

Honeywell's PRO 3000/1000 offers a basic thermostat with the convenience of an easy-to-read digital display. Best of all, it's backed by the Honeywell brand name.

### T8775

The T8775A Thermostat provides 24V control of heating only systems. The T8775C Thermostat provides single-stage temperature control for 24V heating-cooling systems with manual changeover from heat to cool.

### T87K

The Round® Thermostat provides electronic control of 24Vac heating and cooling systems with the classic mechanical interface.

### T87N

The Round® Thermostat provides electronic control of 24Vac heating and cooling systems with the classic mechanical interface.

## Non-Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

---

### T822

Meet all current and future mercury-free thermostat compliance needs with Honeywell's Mercury-Free Econostat. With a sleek, attractive appearance, the Mercury-Free Econostat is the perfect electromechanical replacement choice. 24 Vac.

### T834

Meet all current and future mercury-free thermostat compliance needs with Honeywell's Mercury-Free Econostat. With a sleek, attractive appearance, the Mercury-Free Econostat is the perfect electromechanical replacement choice.

### T812

Basic Thermostats for low voltage control of single-stage heating, cooling or heating-cooling systems.

### TS812

Basic Thermostats for low voltage control of single-stage heating, cooling or heating-cooling systems.

### TL7135

LineVoltPRO™ digital thermostats provide electronic control of 208/240 Vac resistive rated electric baseboard heaters, radiant ceiling heat, convectors and fan forced heaters. If used as directed, they can save up to 10% on annual heating costs.

### TL7235

LineVoltPRO™ digital thermostats provide electronic control of 208/240 Vac resistive rated electric baseboard heaters, radiant ceiling heat, convectors and fan forced heaters. If used as directed, they can save up to 10% on annual heating costs.

### TH401

### TH108 Plus

With TRIAC switching, these digital thermostats deliver exceptional accuracy and silent operation in a stylish, easy-to-use design.

### TH109

### TH114-A

The TH114 Series delivers the features that matter most in a non-programmable thermostat: an easy-to-read backlit display, slim contemporary design and precise temperature control.

### TH114-AF

The TH114 Series delivers the features that matter most in a non-programmable thermostat: an easy-to-read backlit display, slim contemporary design and precise temperature control.

### TH131-AF

## Non-Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

---

### TH135

This easy-to-use electronic thermostat saves three temperature settings and is millivolt compatible.

### TH144-N

TH144 Professional Series™ thermostats use state-of-the-art adaptive controllers for maximum comfort and efficiency.

### TH146-N

This thermostat features a 2-wire user console connection, idea for retrofits. This TH164-N-DE includes a non-programmable console, a control module, and an outdoor temperature sensor.

### TH146-N-U

This thermostat features a 2-wire user console connection, idea for retrofits. This TH164-N-U includes a non-programmable console, a control module, and an outdoor temperature sensor

### TH147

These top-of-the-line thermostats for central heating and cooling feature 7-day programming and a large, backlit display.

### TH147-P

These top-of-the-line thermostats feature 7-day programming and a large, backlit display.

### TH149

This ultra-compact thermostat for HAVC and heat pumps is compatible with conventional single-stage systems or multi-stage heat pump systems.

### TH209

### TH1210D

The PRO non-programmable family of thermostats provides basic and simple operation with specific models for conventional and heat pump systems.

## Non-Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

### THW

The PRO non-programmable digital thermostat provides electronic control of 24 Vac conventional and heat pump systems (1 heat/1 cool) or 750 mV heating systems.

### T8400

Electronic Thermostats provide temperature control for 24V heating-cooling systems, including multistage heat pump systems and multistage conventional and heat pump systems, with manual changeover from heat to cool.

### T8411

Electronic Thermostats provide temperature control for 24V heating-cooling systems, including multistage heat pump systems, with manual changeover from heat to cool.

### T87F

The Round® Thermostat provides temperature control for 24 to 27 Vac residential heating, cooling or heating-cooling systems.

### Q539

Thermostat Subbases provide system and fan switching, and mounting for T87F Thermostats.

### T8034

Meet all current and future mercury-free thermostat compliance needs with Honeywell's Mercury-Free Econostat. With a sleek, attractive appearance, the Mercury-Free Econostat is the perfect electromechanical replacement choice.

### T874

Provides 24 Vac control of multistage heating-cooling systems and heat pump systems.

### Q674

Thermostat Subbases provide wiring terminals, mounting base, and system and fan switching for T874 Multistage Thermostats.

### T410

Economy thermostats that provide reliable line voltage control of resistive rated electric heating equipment. Snap-action switch makes heating circuit on temperature fall.

### T498

Electric Heat Thermostats provide line voltage control of electric heating systems.

### T4398

High Performance Electric Heat Thermostats provide precise line voltage control of resistive-rated electric heating equipment.

### T4800

Precision Electronic Electric Heat Thermostats provide accurate control of resistive-rated electric heating equipment.

### T822K, L

Thermostats provide 24 Vac control of heating or cooling systems

### T827K

Heating thermostats provides control of 750 mV or 12 Vdc heating systems

### TH450

## Non-Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

### Lyric Thermostat

The Lyric thermostat is ideal for customers who are always on the go and want optimal comfort and savings they don't have to think about. Instead of operating on a fixed schedule, Lyric uses their smartphone location to automatically adjust the temperature as they come and go – delivering comfort when they're home and savings when they're away. It's the next generation of connectivity, from the home comfort leader.

### Wi-Fi 9000 Color Touchscreen

Honeywell's Wi-Fi 9000 allows remote access to the thermostat through a computer, tablet, or smart phone with Honeywell's Total Connect Comfort Service.

### VisionPRO Wi-Fi

Millions of homes today are equipped with Wi-Fi enabled devices. Conscientious homeowners want a simple way to remotely monitor and help manage their energy costs will have the peace of mind with this latest Wi-Fi offering from Honeywell.

### Programmable FocusPRO Wi-Fi

Honeywell's Wi-Fi FocusPRO® 6000 allows remote access to the thermostat through a computer, tablet, or smart phone with Honeywell's Total Connect Comfort Service

### Prestige® IAQ 2-Wire Comfort System

The Prestige® IAQ thermostat is a 2 wire high definition color touch screen thermostat, 7 day programmable and selectable for residential or light commercial use. Controls up to 4-stages of heat and 2-stages of cool in a heat pump system and up to 3-stages of heat and 2-stages of cool in a conventional system.

### Prestige® IAQ Comfort System

Prestige redefined design with their high-definition color system and now, Prestige IAQ does the same, with easy installation & control from a one device. But that's not all. Prestige IAQ connects you to customers with Customizable Service Reminders.

## Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

### Prestige® Comfort System

Prestige redefines how a thermostat can look and function and is the easiest-to-use programmable thermostat available. This RedLINK enabled line includes a: 7 Day Programming wizard, Multi-Language Options & USB setup, Customizable Service Reminders.

### VisionPRO® IAQ

VisionPRO® IAQ takes VisionPRO thermostats where they haven't gone before. VisionPRO IAQ Total Home Comfort Systems let you manage temperature, humidification, dehumidification, ventilation and reminders from a single control and only three wires.

### VisionPRO® 8000 with RedLINK™ technology

VisionPRO® 8000 with RedLINK™ technology is a touchscreen thermostat, 7 day programmable and selectable for residential or light commercial use. Controls up to 3-stages of heat and 2-stages of cool in a heat pump system and up to 2-stages of heat and 2-stages of cool in a conventional system.

### VisionPRO®

VisionPRO® 8000 has responsive programming for optimal comfort and energy savings. It offers you features like touch screen interaction, a real-time clock, and a backlit display. If you value comfort, choose VisionPRO and enjoy it for years to come.

### Programmable FocusPRO

Honeywell's FocusPRO® 6000 digital thermostat offers the perfect blend of features, performance, energy savings and value. With the largest backlit screen in its class, the FocusPRO 6000 prominently displays both room and set temperature.

### Programmable PRO

Honeywell's PRO 4000/2000 offers a basic thermostat with the benefits of energy savings. PRO 4000 features an easy-to-read display and 5-2 day programming. Best of all, it's backed by the Honeywell name.

### TH7220 Thermostat

### TL6120

The LineVoltPRO™ programmable thermostat provides electronic control of 240 Vac resistive rated electric baseboard heaters, radiant ceiling heat, convectors and fan forced heaters.

### TL8130

The LineVoltPRO™ programmable thermostat provides electronic control of 208/240 Vac resistive rated electric baseboard heaters, radiant ceiling heat, convectors and fan forced heaters.

### TL8230

The LineVoltPRO™ programmable thermostat provides electronic control of 208/240 Vac resistive rated electric baseboard heaters, radiant ceiling heat, convectors and fan forced heaters.

### T4700

Chronotherm® Electronic Programmable Line Voltage Thermostats provide line voltage, electronic programmable temperature control, of resistance-rated heating systems and can save up to 28% of the energy used to heat a controlled zone.

### TH104

With TRIAC switching, these digital thermostats deliver exceptional accuracy and silent operation in a stylish, easy-to-use design.

### TH106

This high-capacity TRIAC thermostat combines unbeatable accuracy and silent operation.

### TH108

With TRIAC switching, these digital thermostats deliver exceptional accuracy and silent operation in a stylish, easy-to-use design.

## Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

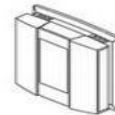

**TH115-A**

These compact, stylish thermostats come loaded with advanced programming features and a large backlit LCD.

**TH110**

**TH132-A**

**TH134**

**TH115-AF Line Voltage**

These stylish programmable thermostats with a large backlit LCD are available with 5 mA GFCIs or 15 mA EGFPDs.

**TH132**

**TH115-AF Low Voltage**

These stylish programmable thermostats with a large backlit LCD are available with 15-minute or 15-second cycles.

**TH115-AF-024T**

**TH140**

This versatile thermostat controls systems from millivolts to 240 V and is also well-suited for hot water heating.

**TH141**

This stylish thermostat features automatic changeover between heating and cooling.

**TH144-P**

The TH144 Professional Series™ thermostats use state-of-the-art adaptive controllers for maximum comfort and efficiency.

**TH146-P**

This thermostat features a 2-wire user console connection—ideal for retrofits. The TH146-P-2H1C includes a programmable console, a control module, and an outdoor temperature sensor.

**TH146-P-U**

This thermostat features a 2-wire user console connection—ideal for retrofits. The TH146-P-U includes a programmable console, a control module, and an outdoor temperature sensor.

**TL8100**

The TL8100 Hydronic Thermostat offers the energy savings of a programmable control for a wide variety of applications without a need to carry multiple thermostats for different applications. Controls 2-way and 3-way zone valves or circulator pumps.

**T8600**

Chronotherm® IV Plus Programmable Thermostat provides electronic control of 24 Vac single-stage or multistage heating and cooling systems, including heat pump systems.

**T8665A**

Chronotherm® IV Plus RF Wireless Programmable Thermostat provides wireless control of 24 Vac heating and cooling systems. Use with W8665A for single-zone applications or W8665E for zoning applications.

**C7089**

Remote outdoor temperature sensor, when installed, the current outdoor temperature is displayed. Also can be used to manage dual fuel and lock-out expensive auxiliary heat in heat pump applications.

**C7189**

The Remote Indoor Temperature Sensor for VisionPRO® IAQ and VisionPRO® thermostat families.

## Programmable

Contractors, home and building owners choose Honeywell for many reasons. For you, reliability, application flexibility and install ease stand out. For your customers, easy use, accuracy and design make Honeywell the most trusted thermostat name.

---

### Y8735B

Consists of a W8735B Telephone Access Module and a CM8900 Communicating Module.

### Master/Slave System Units

This system is specially designed for large floor heating applications exceeding 15A.

### TH114P

### TH105

Line Volt 5-2 programmable thermostat

### TH303

### TH404

This thermostat has been designed to control an electric heating system such as a baseboard heater, a radiant ceiling, a convector or a fan-forced heater.

## Thermostat Guards and Accessories

### Thermostat Guards and Accessories

---

**TG510**

The Versaguard® Universal Thermostat Guards cover wall thermostats and protect against tampering, damage and unauthorized adjustment of thermostat settings.

**TG511**

The Versaguard® Universal Thermostat Guards cover wall thermostats and protect against tampering, damage and unauthorized adjustment of thermostat settings.

**TG512**

The Versaguard® Universal Thermostat Guards cover wall thermostats and protect against tampering, damage and unauthorized adjustment of thermostat settings.

**THP2100**

## Guards Parts and Accessories

**THP2400**

Cover plate assembly. Use to cover marks on the wall or to mount the thermostat to a 2 in. X 4 in. electrical box. Includes a small and large cover plate, one bracket and mounting hardware.

## Thermostat Accessories and Replacement Parts

## Electric Heating Accessories

## Telephone Control Modules

Use a touchtone phone to heat your cottage or home just in time for your arrival

## Thermostat Guards and Accessories

### Thermometers

Electronic thermometer displays indoor and outdoor temperature (TE503 models) or indoor temperature and relative humidity level (TE513 models)

### Duct Temperature Sensors

Sensor is designed to be used with Aube thermostats and controllers to measure the temperature inside the air duct

### Floor Temperature Sensors

Flexible or Rigid floor sensors

### S483

Used as a freeze warning device. Completes circuit to household lamp on temperature fall, indicating inoperative heating equipment.

# Honeywell

## Wireless

FocusPRO® is now wireless so it's portable and can go anywhere and solve any problem. That means more job completions, which means higher profits. Includes the Portable Comfort Control to sense temperature and a Wireless Outdoor sensor.

### YTH5320

Everything you need to relocate or upgrade with a non-programmable thermostat without running new wires. Kit options include wireless outdoor sensor, RedLINK Internet Gateway for remote access, or wireless adapters for working with TrueZONE panels.

### YTH6320

Everything you need to relocate or upgrade with a programmable thermostat without running new wires. Kit options include wireless outdoor sensors, RedLINK Internet Gateway for remote access, or wireless adapters for working with TrueZONE panels.

### TH5320 Wireless

Everything you need to relocate thermostat or upgrade equipment without running new wires.

### TH6320 Wireless

Everything you need to relocate thermostat or upgrade equipment without running new wires.

### REM5000

Use the Portable Comfort Control anywhere in the home to experience a new level of comfort and convenience. Works in both zoned and non-zoned applications.

### C7089R

Senses outdoor temperature and humidity to display on RedLINK™ enabled thermostats and accessories.

### THM5320

Easily relocate thermostat or upgrade equipment without running new wires using this module and a wireless FocusPRO® thermostat.

### C7735

Return Air Sensor mounts on return duct for backup control of non-zoned RedLINK™ enabled Wireless Systems and Thermostats.

### THM4000

Wireless Adapters allows easy addition of RedLINK™ enabled thermostats to TrueZONE™ systems. Use with a RedLINK™-enabled TrueSTEAM™ Humidification System to communicate & control humidity. It also controls dehumidifiers like the Honeywell TrueDRY™.
